## *Bettie*

Twelve-year-old Bettie is a tomboy who admits sitting still isn't "her thing!" She loves sports and will often be found tossing around a football, kicking a soccer ball or serving up a game of volleyball. When it comes to Bettie, there is never a dull moment - she loves to joke around with people. This young lady has been in foster care for a handful of years and says she wants a family of her own because, "the one I have is torn apart and without a family, I feel vulnerable." She would love brothers and sisters and needs a family that will let her keep in touch with her older biological sister.

**For more information on Bettie,  
call 1-866-9-FOSTER.**

### **What is Adoption?**

Adoption makes it possible for children to legally become a part of your family. It's the legal transfer of all parental rights to the adoptive parent who then has the same rights and responsibilities as parents of birth children.

### **Who May Adopt?**

- People 18 years old and above
- Single or married people
- Relatives
- Must be self supporting and pass a criminal background check

### **How Do You Become An Adoptive Or Foster Family?**

- Call your local Child and Family Services Division (CFSD) office to get information.
- Register for the pre-service training.
- Submit References and complete application to your local CFSD office.
- A Family Resource Specialist will begin a home study that will include visiting your home and assessing your family.
- If you are licensed for foster care or approved to adopt, your family will be considered for placement of a child, dependent upon the child's needs.
- After placement, a child must remain in your home for 6 months before the court may finalize the adoption.
